NJSIM Foundation

About Society for Information Management and the NJ SIM Foundation

The Society for Information Management (SIM) is a national professional organization of over 5,000 senior information technology executives, CIOs, prominent academicians, select consultants, and others. SIM members meet to share and enhance their rich intellectual capital for the benefit of its members and their organizations. The New Jersey chapter is one of the largest and most active of SIM's state chapters.

NJ SIM Foundation is a 501c3 Giving Back program maintained by the NJ Chapter of SIM. Since 2005, the Foundation has provided over \$780,000 in grants to over 40 NJ charities to invest in technology innovation. Additionally, the Foundation awards college scholarships for exceptional students majoring in technology and staffs a STEM Career Awareness program targeted towards Middle School students. Visit <http://njsim.org/nj-sim-foundation/> to learn more about NJ SIM Foundation.

2022 Primary Beneficiary

Cornerstone Family Programs and Morristown Neighborhood House is the Primary Beneficiary of the 2022 NJ SIM Foundation Charity Golf Outing.

This year's primary beneficiary is the Cornerstone Family Programs and Morristown Neighborhood House. Together the affiliated organizations provide resources to people from age 2 to 102 in the Greater Morris County area. Morristown Neighborhood House was founded in 1898 as a settlement house embracing diversity; and today still remains a pillar of diversity and cross-cultural positivity.

For over two centuries, Cornerstone Family Programs has continually transformed to anticipate and address the evolving needs of the individuals, families, and communities we serve. In 2013, Cornerstone Family Programs and the Morristown Neighborhood House merged to become the organization you see today.

Over the years Cornerstone Family Programs and Morristown Neighborhood House have impacted the lives of over 30,000 people! Programs ranging from child daycare, nutritional education, work programs, adult day outreach are offered, and align with the mission of the NJ SIM Foundation, including STEM education and college prep programs.

2022 Student Scholarship Awards Program

The objective of the NJ SIM Foundation Student Scholarship Award program is to give back to students who demonstrate high scholastic performance, leadership, community service and financial need to defray the increasing costs of higher education. Scholarship applicants must currently be enrolled in an accredited 4-year college/university in pursuit of a bachelor's degree in an Information Technology discipline. In addition to having financial need, all of the candidates must be identified by their college sponsors as demonstrating respect for self and others, commitment to school and community and be high achievers.

This year, NJ SIM Foundation College Scholarship Awards were presented in the form of checks in the amount of \$5,000 each payable to two student. The awards were sent to the recipients during this past summer to be used for their fall semester tuition.
